Resource H: Weight of items record

Use this sheet to record the weight of the items at the start and end if you want to work out how much you've diverted from landfill! It's nice to let attendees know how much good work they've done and helps further promotion of events if you can say 30kg of clothes were diverted, 25 pairs of shoes etc!

Item Type	Amount	Weight
(e.g. clothes, shoes etc.)	(e.g. 5 items)
